Product Code: MBHRKIT

Remote Control Kit with Run on Timer to Suit 3 in 1 Bathroom Heater Exhaust Fan

CAUTION
READ INSTRUCTIONS
CAREFULLY FOR SAFE
INSTALLATION AND FAN
OPERATION

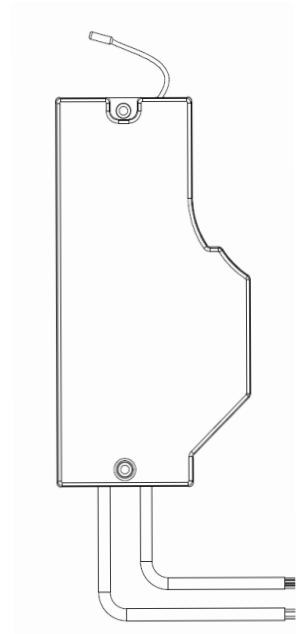

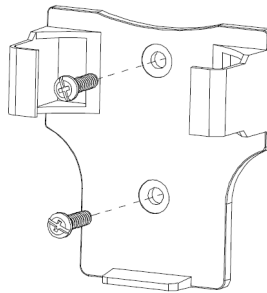

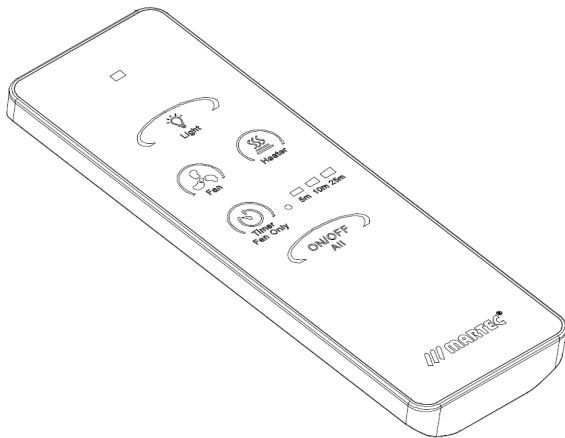

**MUST BE
INSTALLED BY
A LICENSED
ELECTRICIAN**

SAFETY PRECAUTIONS

1. Please read and save these instructions.
2. Please note that all fixed wiring appliances should be installed by a qualified electrician.
3. The main power supply to the remote control receiver should be connected through an isolation switch in accordance with SAA wiring rules and Australian standards
4. Disconnect from power supply at the isolation switch before installing or replacing the remote receiver or bathroom fan/heater unit
5. Install receiver onto the back of the bathroom Fan/heater to ensure proper protection.
6. This unit is to be used for the control of bathroom heater with AC220/240V 50Hz power supply only.
7. Do not install in damp locations or immerse into water. (For indoor use only.)
8. Do not pull on or cut leads shorter.
9. Do not drop or bump the unit.
10. PLEASE NOTE: The battery will weaken with age and should be replaced before leaking takes place as this will damage the transmitter. Dispose used battery properly; keep the battery out of reach of children.
11. The use of fluorescent energy saving light globes with electronic remote control units can damage the remote control unit and is not recommended as this could void warranty.
12. If this remote control unit is to be used on a 2 Heat Bathroom Fan, Heater, Light unit you must ensure that the "HEAT 2" wire is correctly terminated.

BEFORE INSTALLATION

UNPACK THE PRODUCT CAREFULLY AND IDENTIFY ALL PARTS.

Part List

1. 1x Remote with 2x AAA batteries
2. 1x Wall mount bracket
3. 1x Receiver

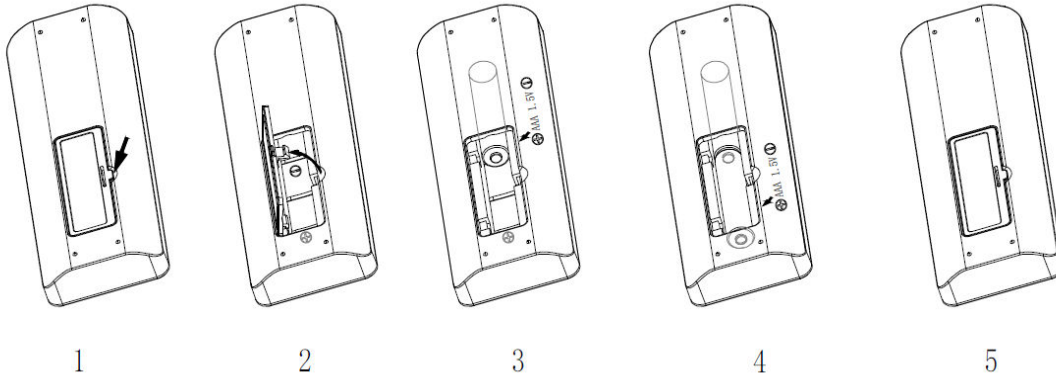

Please NOTE: Check if this remote kit is compatible with the heater installed.

For more information about Martec Bathroom Heaters, please visit: www.martec.com.au

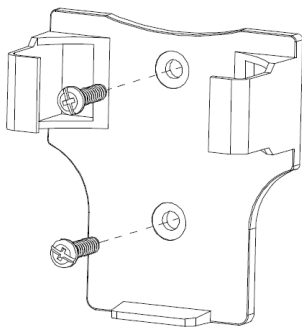

PLEASE NOTE: Check for any damage to the product prior to installation.
Physical damage such as marks and scratches are not covered by the in-home warranty.
In this case, please contact the Martec support team to discuss replacement parts.

INSTALLATION

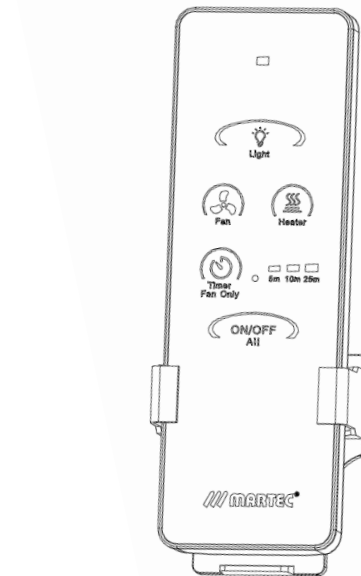

- ① Install the battery at the back of the remote.

- ② Install the remote bracket on the wall using the supplied screws.

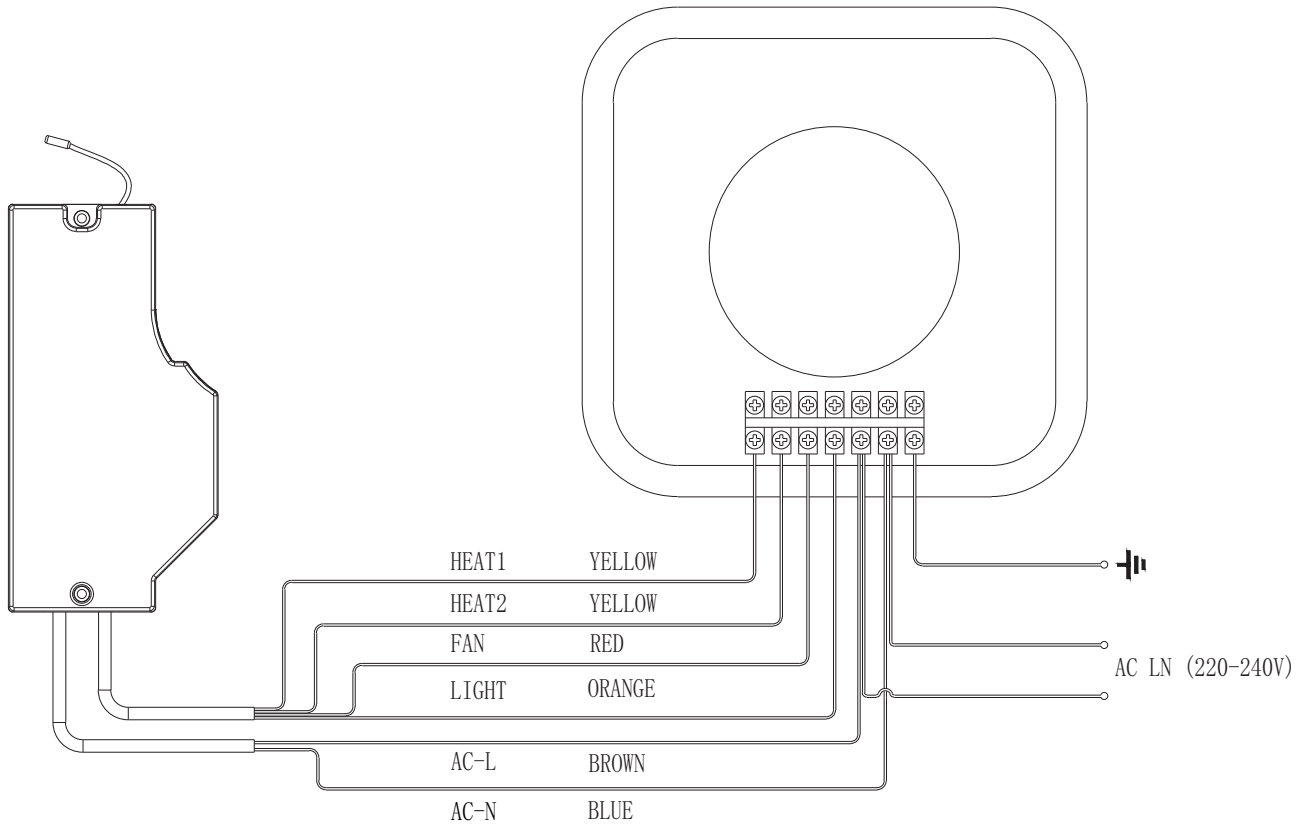

- ③ Attach the remote onto the bracket.

INSTALLATION

- ④ Wire the receiver as illustrated below.

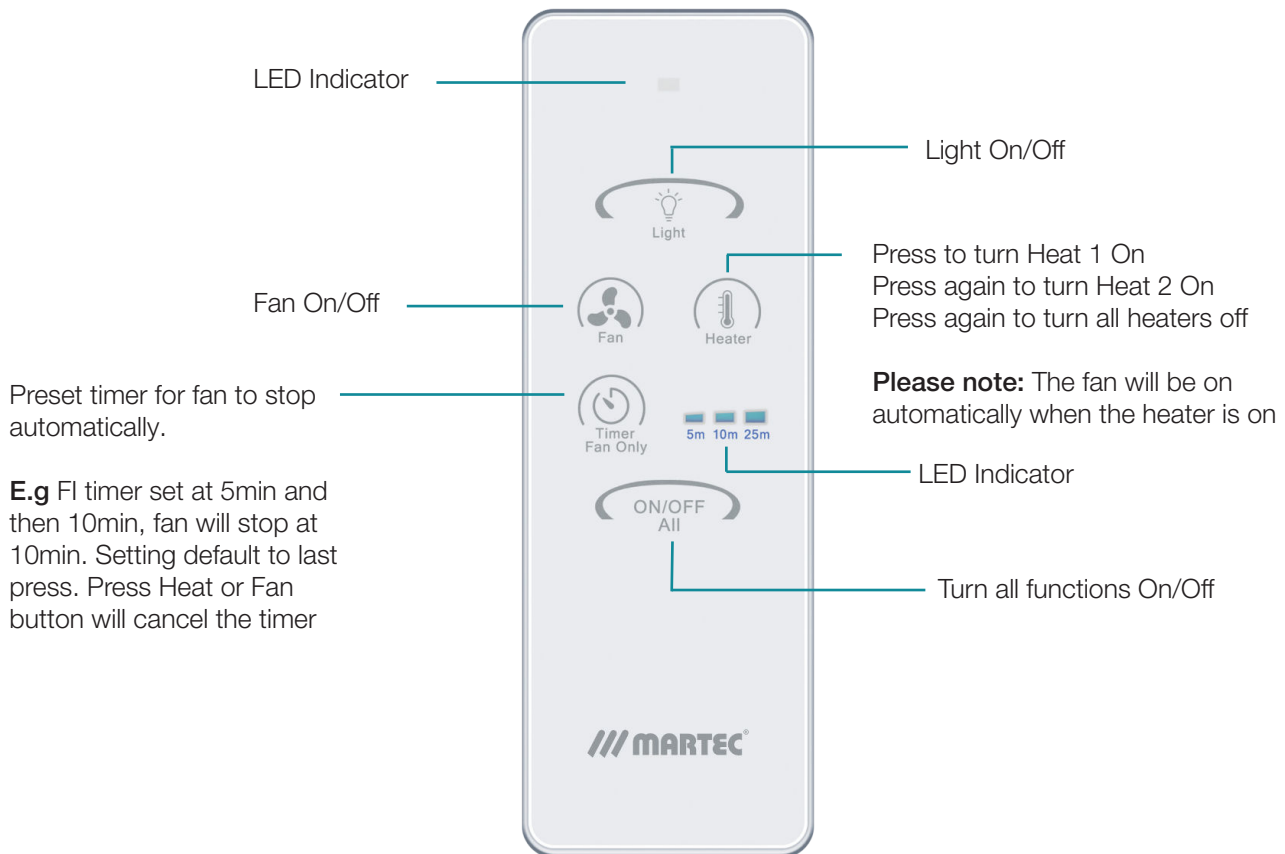

Please note:

1. If this remote control unit is to be used on a 2 Heat Bathroom Fan, Heater, Light unit you must ensure that the "HEAT 2" wire is correctly terminated.
2. Once power is turned on the fan and light will turn on automatically, this is normal and will require you to press the fan and light buttons on your remote control transmitter to turn the fan and light off.
3. Once the connection has been made install the remote receiver onto the back of the fan/heater unit using double sided tape provided.

REMOTE CONTROL OPERATION

A remote control consists of two parts:

1. Handset / controller (transmitter)
2. Receiver

PAIRING METHOD

If the emitter can not control the fan, learning code matching mode is used between emitter and receiver.

Turn "ON" the supply power within 30 seconds and press the emitter's  button for 5 seconds, it can load normally after hearing a long sound "beep", which means learning successfully and it can work normally.

(Please Note: Learning mode is not accepted after turn "ON" the supply power for 30 seconds)

IMPORTANT: If you have multiple heaters in the house, you must pair them one at a time to their corresponding transmitter. Power must not be on to the other heaters while pairing or you will inadvertently pair multiple heaters to only one transmitter. If this occurs, you need to use the reset function and begin re-pairing with power only on to the fan being paired.

IMPORTANT FACTS

Remote Control Notices:

When the emitter cannot control the receiver, please check the battery switch touching normally or not correction of the positive and negative, full or empty of the power.

When the emitter cannot control the receiver, please check is there any existence of similar remote controlled products nearby then check whether they work because remote controlled product with the same frequency will disturb each other. Please take out the battery from the emitter when leaving unused for a long time. When installing the fan, the fan ceiling cover don't press the antenna (or other wire), it is easy to breakdown the wire and short-circulated.

Heater Operation:

This heater remote has been designed for fast installation. The receiver and the bathroom heater must be installed with an isolation switch on the wall.

Warranty is void if parts are used that are not Martec products, or products that are not compatible with this heater remote.

The remote cannot be paired to multiple heaters.

When using the timer, the timer button must be the last button pressed. If another button is pressed after the timer button, the timer is cancelled.

Normal wear and tear:

Normal wear and tear, such as loose screws or increased noise due to moving parts, and damage from accidental contact are not covered under warranty. However, regular maintenance, including tightening screws and changing batteries
