www.martecaustralia.com.au

MARTEC Cooling

Place fan into hanger bracket and align Ball Joint Slot with hanger bracket as illustrated.

Place the receiver into the bracket and connect between power and motor as illustrated.

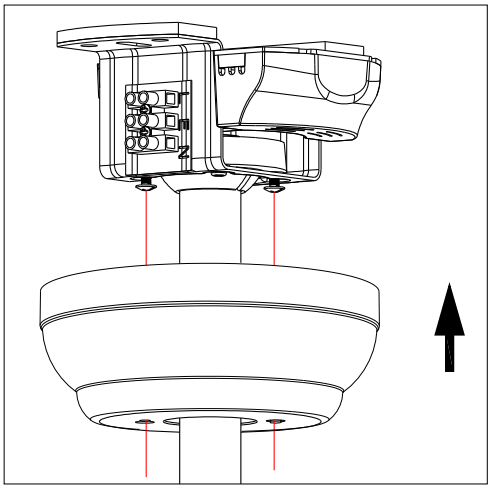

Wire up the receiver with quick connectors and insert into the mounting bracket. Please make sure the antenna wire has been safely folded inside the canopy cover before final assembly (DO NOT cut the antenna wire)

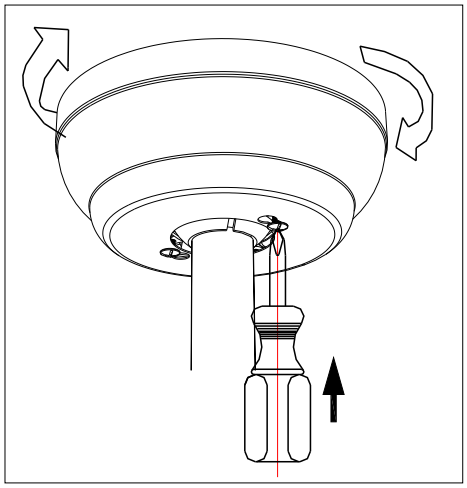

Important Reminders

Receiver must be correctly installed in the mounting bracket
When the transmitter cannot control the receiver, please check

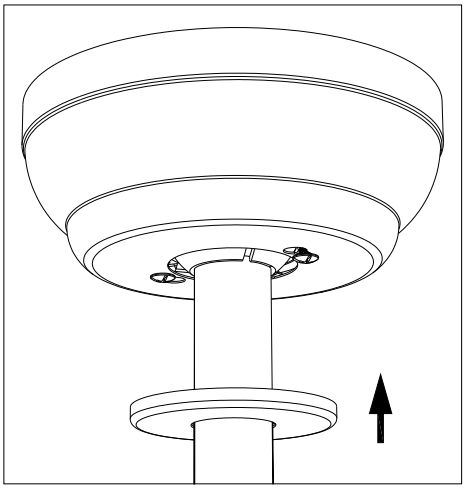

i) has sufficient battery in the transmitter
ii) any existence of similar remote controlled products nearby that cause interference
Replace battery if getting low as this will affect sensitivity of the transmitter
Take the battery out from the transmitter when leaving used for a long time to avoid battery leaks
Isolation switch MUST be connected in the line

Carefully pull up and install the ceiling canopy as illustrated

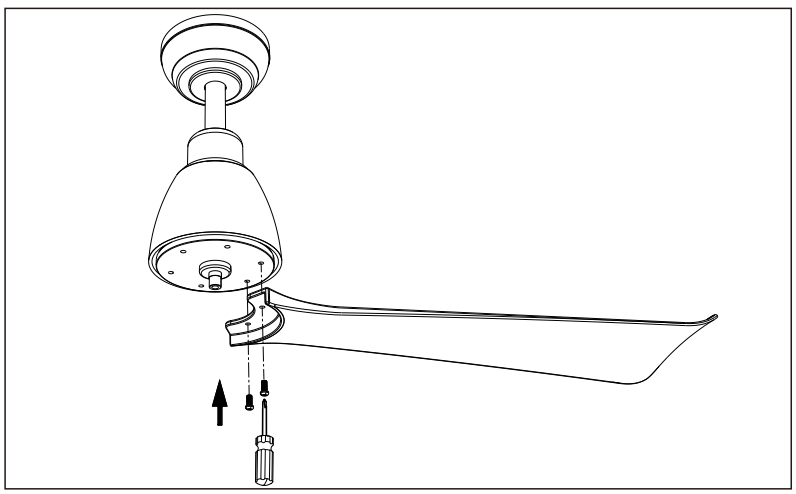

Carefully put the screw cap on using the piece of magnetic supplied.

How to install blades

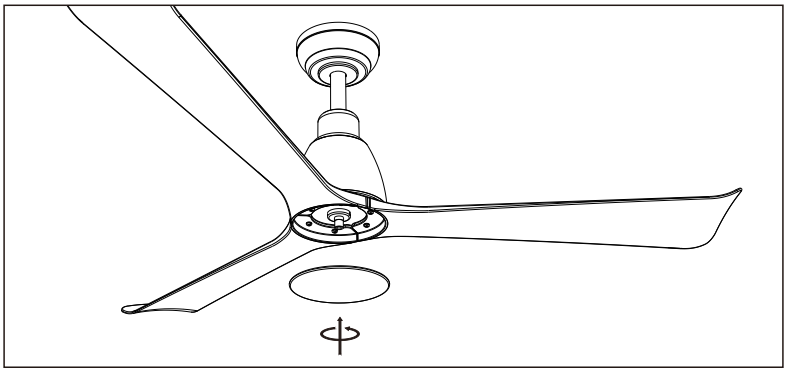

Install the blades to the bottom of the motor. Tighten and secure blade with screw and washer provided. Repeat this procedure until all blades are installed.

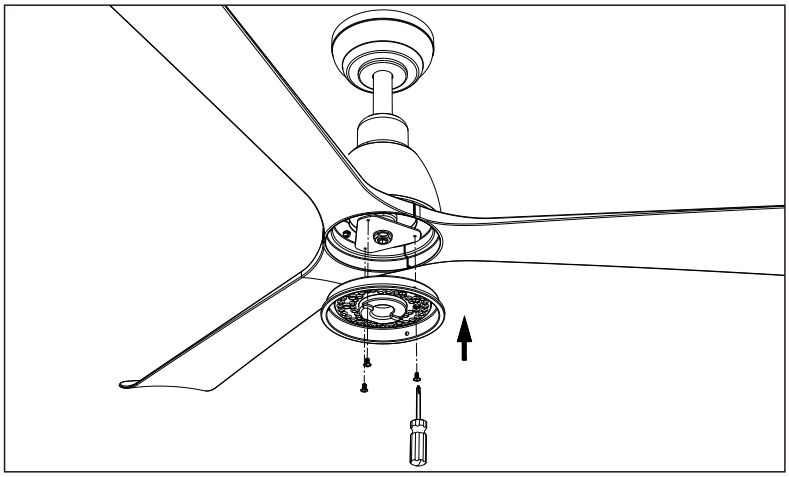

NB:Ensure the blades do not get damaged or bent during the installation process while the fan maybe on the ground, this will affect the performance and balance of the fan and this is NOT covered under warranty

Install the cover as illustrated to finish the installation.

If you are installing model with LED light, **GO TO** the next step.

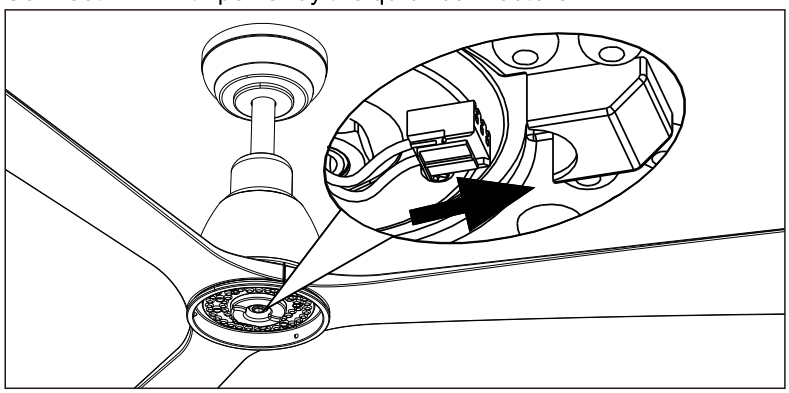

Installing light

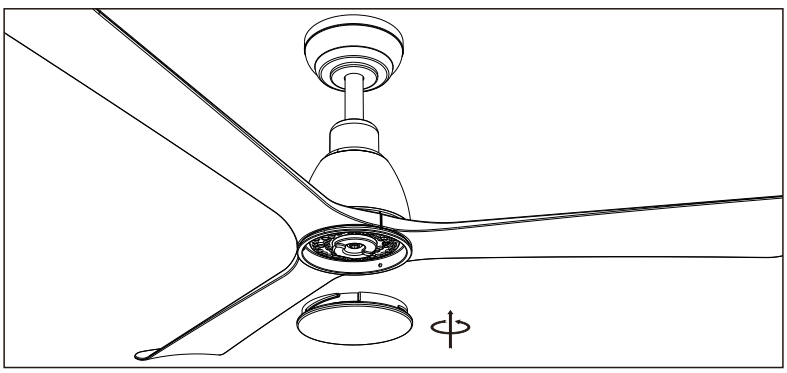

Install the LED light plate onto the steel bracket as illustrated with the 3 supplied screws.

Connect LED with power by the quick connectors.

Install the diffusers as illustrated to finish the installation.

WARNING **Installation MUST carry out by a qualified and licensed electrician.**

MARTEC Cooling

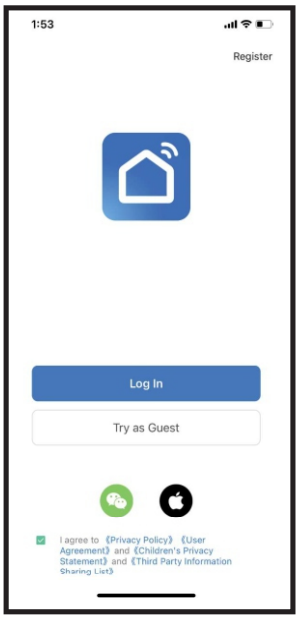

WARNING Installation MUST carry out by a qualified and licensed electrician.

Smart Life matching process, please follow the steps:

1.Download the “Smart Life” APP on your smart devices by scanning the QR code below with camera.

2.Turn on WiFi and Bluetooth on your smart devices. Ensure it’s connected to a 2.4GHZ WiFi.

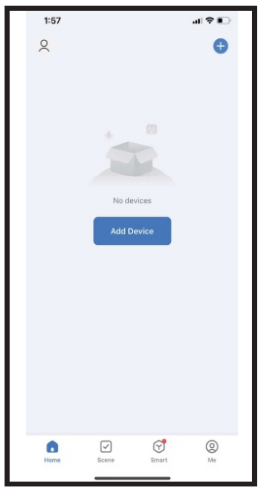

3.Open the APP, follow the steps to register new user account or login existing account.

4.Follow instructions in main manual (steps can also be found on the back of the remote) to put the fan into WiFi pairing mode. If the operation is successful, go to step 6. If the fan has previously been paired or you can’t get it to work, please go to step 5 to RESET the fan.

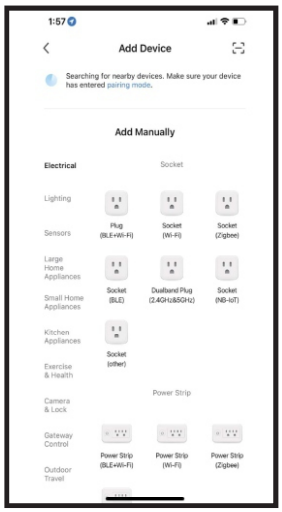

5.RESET the fan. This step is NOT necessary if the fan has successfully entered WiFi pairing mode in the last step, if not, try to RESET the fan: turn on the fan, power off after 10 seconds, power on again after 15 seconds, long press “Fan Stop” for 5 seconds, if "beep beep" are heard, the reset is successful. If "beep beep" is not heard, the reset is failed, please repeat this step.

6.Once the fan has entered WiFi pairing mode, open the APP again on the smart device. Click “Add Device” in the middle or the “+” on the top right of the screen.

7.The auto scan should begin automatically, and the fan should show up at the top of screen within a few seconds.

Note: If the fan is not showing up, you can add it manually by clicking and navigate to: >Add Manually >Small Home Appliance > Fan

WARNING Installation MUST carry out by a qualified and licensed electrician.

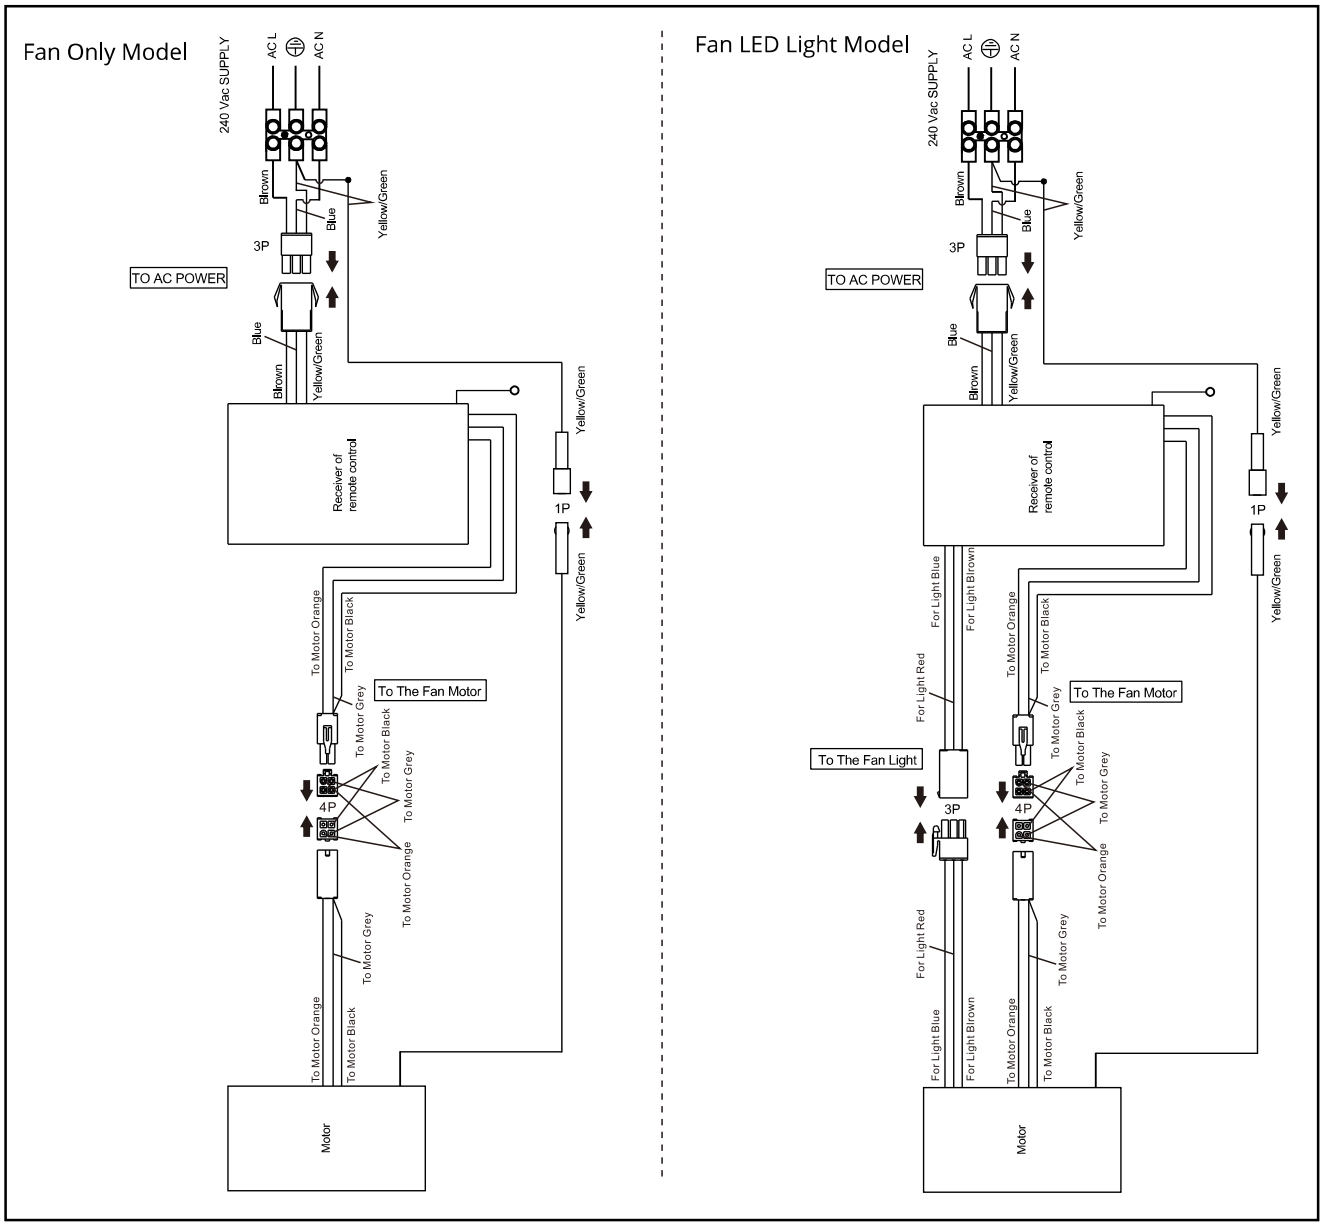

8.Follow instructions in the APP to finish the set up.
