

# INSTALLATION GUIDE

## MARTEC PREMIUM DC WALL CONTROL

**Product Code: MDCPWC**

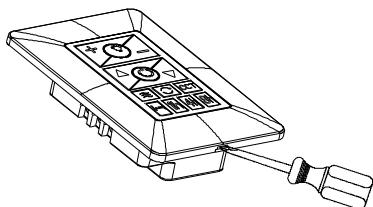

Premium WIFI DC Wall Control to suit all Martec DC WIFI & Quantum/Zorro Ceiling Fans

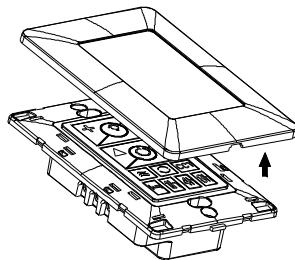

**MUST BE  
INSTALLED BY  
A LICENSED  
ELECTRICIAN**

# INSTALLATION

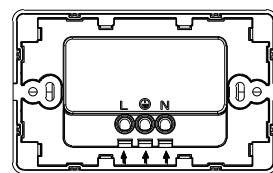

## Installation Steps:

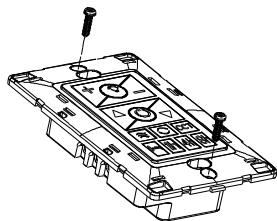

1 Pry up the panel with a screwdriver

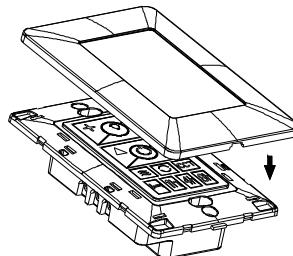

2 Open the panel

3 Insert the wire into the corresponding screw hole

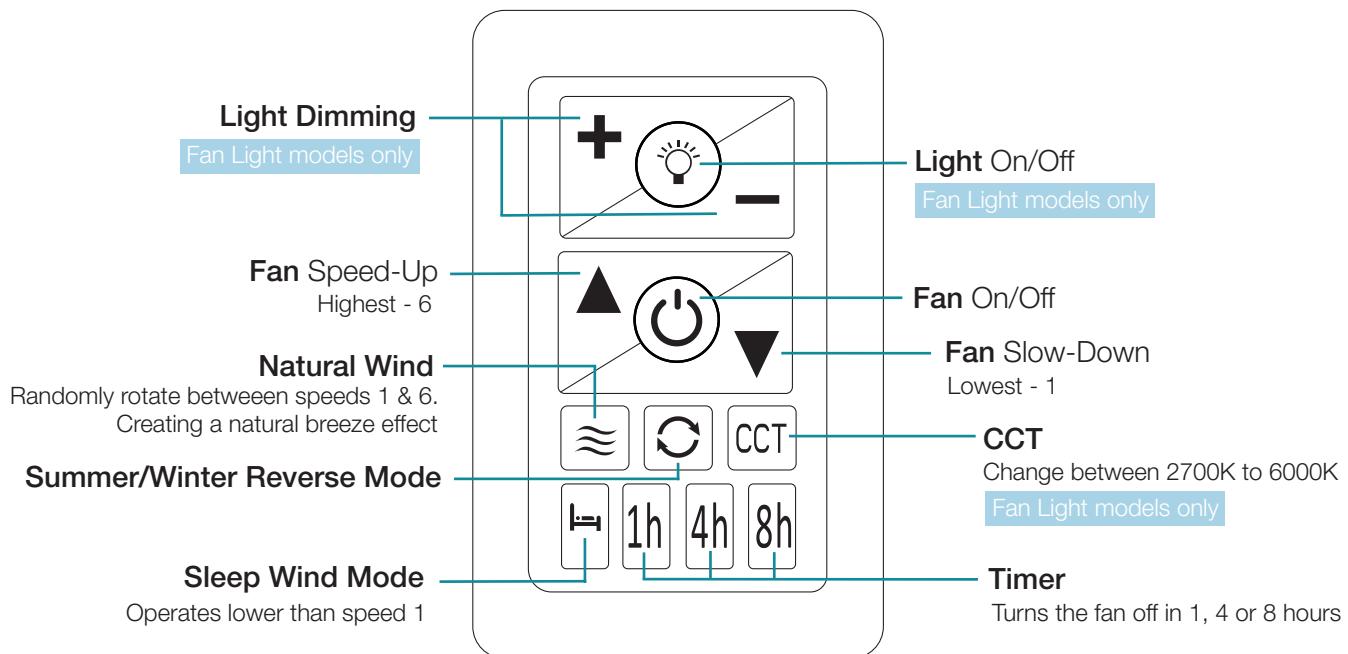

4 Install the wall controller in the junction box and secure it with screws

5 Put the panel back in the wall controller

**PLEASE NOTE:** Check for any damage to the wall controller prior to installation. Physical damage such as marks and scratches are not covered by the in-home warranty. In this case, please contact the Martec support team to discuss replacement parts.

# REMOTE CONTROL OPERATION

## PAIRING METHOD

If the emitter can not control the fan, learning code matching mode is used between emitter and receiver.

Turn "ON" the supply power within 10 seconds and press the emitter's **O** button for 3 seconds, it can load normally after hearing a long sound "beep", which means learning successfully and it can work normally.

(Please Note: Learning mode is not accepted after turn "ON" the supply power for 10 seconds)

### Notices:

When the emitter is unable to remotely control the receiver, please confirm whether the wires are connected properly.

When the emitter cannot control the receiver, please check is there any existence of similar remote controlled products nearby then check whether they work because remote controlled product with the same frequency will disturb each other.

Please take out the battery from the emitter when leaving unused for a long time. When installing the fan, the fan ceiling cover don't press the antenna (or other wire), it is easy to breakdown the wire and short-circuited.
